Discussion

13.00

Conclusions

Giovanni Alfredo Barbieri
(Istat - Director of Division for User's
needs, Integration and Territory)

eXplorer,
the dynamic
web-enabled
graphical tool
for analyzing,
sharing
and publishing data.

An example of how
dynamic data
visualization tools,
collaborative
software and new
approaches
to information
design may open
new perspectives
on knowledge
production
and integration.

Monday, 26 April 2010

8.45 - 13.00
Istat - Great Hall
via Cesare Balbo 14
Rome
